**RESPONSE AFTER FINAL ACTION
PURSUANT TO 37 C.F.R. § 1.116**

Sir/Madam:

This response is submitted to address the issues presented in the final Office Action dated April 17, 2007 and the subsequent Advisory Actions dated June 27, 2007 and July 19, 2007.

In view of further discussions with Examiner Lee on July 25, 2007, Applicants hereby submit a revised Declaration of Christopher K. Ober, Ph.D. Under 37 C.F.R. §1.132¹ in order to overcome the rejection of Claims 20 and 21. In accordance with the Manual of Examining Patent Procedure (MPEP) §715.01(c), the revised amendment further asserts that to the extent that Dai et al. *Proceedings of SPIE* 5039: 1164-1172 (2003) describes the invention claimed in the present application, the publication describes Applicants' own work.

Applicants further incorporate as if fully set forth herein the responses from Applicants' Amendment dated June 12, 2007 responsive to the final Office Action dated April 17, 2007. It is Applicants' further understanding that the claim amendments presented therein will be entered.

¹ A copy of the signed Declaration of Christopher K. Ober, Ph.D. Under 37 C.F.R. §1.132 will be submitted immediately upon receipt.
